Terminal Exam (No – resits)

Digital Information Technology

Course Overview

- A course that is designed to develop your knowledge, understanding and key skills that prove your aptitude in digital information technology
- You will process effective ways of working in digital information technology, such as project planning, design process, cyber security, and much more
- You will demonstrate your ability to create user Interfaces for different applications.
- You will be creating spreadsheet models: collecting, presenting and interpreting data
- You will be looking at how digital information affects organisations

Make the smart choice

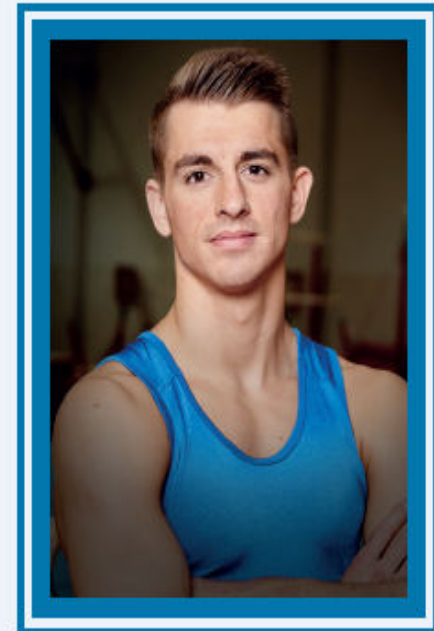

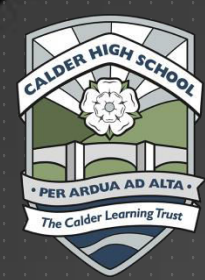

BTEC at Key Stage 4

“

For me, BTEC was a no-brainer, it was a perfect choice for me because I'm the type of person that likes to get stuck in and really involved in what I do.

Max Whitlock MBE, five-time Olympic medallist

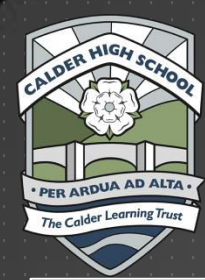

WHAT EX-STUDENTS SAY:

“I’ve worked steadily for the length of the course, Knowing I am working towards Distinction in the coursework really helps”

Using Lesson time to revise more, fewer exams, feeling good because of knowing I am on target for a grade **DISTINCTION***

The exam is taken in June of Year 11 & is a well structured exam. **DISTINCTION***

“I’m not very confident in exams but got a Merit in the exam. I’m so pleased because my final grade for the course was a Distinction.”

WHAT EX-STUDENTS SAY:

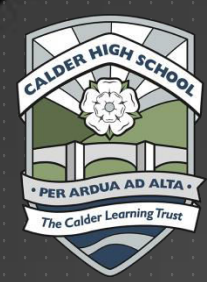

“I love it because there are coursework units. Exams scare me so I like doing the coursework units.”

This student got a Pass in the exam & Distinctions in her coursework units.
Overall grade:
DISTINCTION

What you achieve at the end of the course is often down to how hard you are prepared to work.

I really like that it is more coursework based as you have that bit more control than when it is all exam!

“I am targeted a Merit but am working at Distinction.”

POTENTIAL JOB OPPORTUNITIES
